

# Six's Portfolio 2019-2022

Archive at [sixkunst.ee](https://sixkunst.ee)

Six is an Estonian contemporary arts creator, producer and artist whose creative fields are a mixed concept art and cultural-entertainment environment. She is a sound and light artist, a contemporary sculptor and an interdisciplinarian. On the content side of the artist's practice, there is a strong emphasis on the audience's personal interpretation, creating an experience-based dialogue between performer and viewer.

2013 2012 Tallinn, Kultuuritolm; art team  
2010 Tartu, Greifi trükikoda. "Hostock" concept-producer

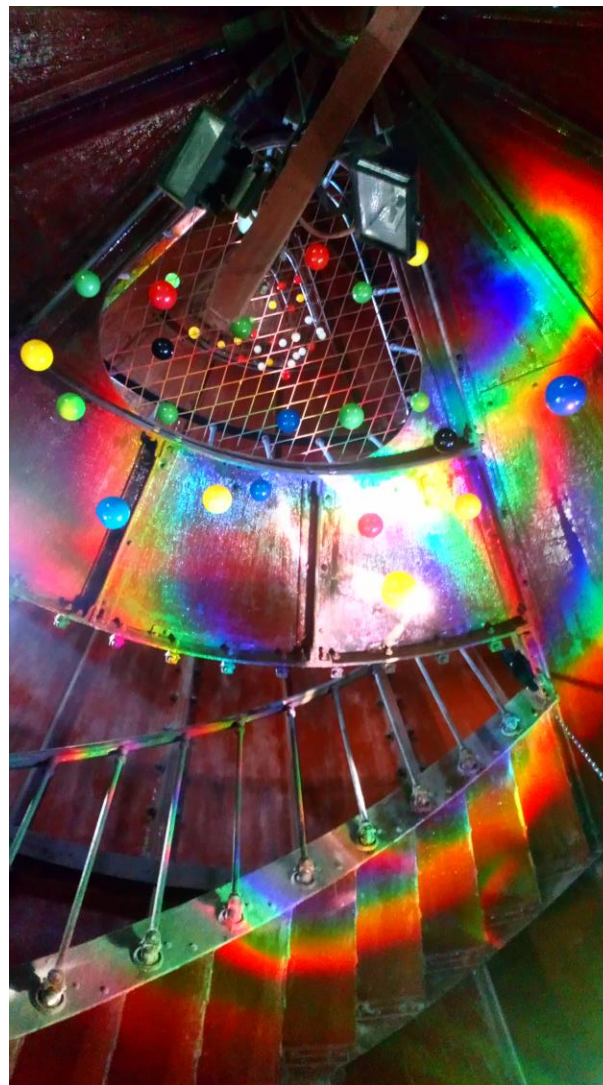

# KAPSEL (Capsule)

**Sixi's solo exhibition at Tahkuna Lighthouse 11.06-17.09.2022 on the Hiiumaa.**

The title of the exhibition is a semiotic image, which is the "key" of the work. "KAPSEL"(CAPSULE) refers to the state inside and isolation, which the exhibition visually tears apart with the work. Daily habits, cultural mentality and emotional intelligence become important. KAPSEL is a light-sculpture reflecting society, it characterizes a multiple layer of shadows from the reflections of light sources with a form that blends into the environment, which was experienced in a variety of ways in the cylinder.

## **Must\_Habe (Black\_Beard) 15.01-19.02.2022**

The central theme of the exhibition, as the title suggests, is the black beard, a species of algae that lives in an aquarium. The exhibition includes an audiovisual edit of various scenes of aquarium life. The work is a playful and slightly rhythmic fantasy of the life of the aquarium-dwelling river fish Swordtail living among these algae. The deep, dark tones of the video art take the viewer into a picturesque world of noise, with the sound of water gurgling, the whistling of a hydro-pump, and the gentle crunching of rocks.
